Subaru EJ20 EJ25 Forged Connecting Rods Description

Forged steel I-beam, H-beam and X-beam rids made from 4140, 4340, 4330, 300M or other properitary high strength chrome steel alloys are a good upgarde option for many engines. At present, Hurricane Speed& Performance have various kinds of forged steel rods for Subaru EJ20 EJ25 engines. Compared with <u>Subaru EJ20 H beam rods</u>, Custom I-beam connecting rods for Subaru EJ20 can handle more

horsepower in theory. Hurricane Subaru EJ20 EJ25 connecting rods are fits for 2002-2014 Subaru Impreza WRX and 2004-2017 Subaru Impreza WRX STI.

And we add OIL RESERVOIR ON P.E, Featuring a funnel shape at the top oil hole to provide a better chance to collect oil for the PE lubrication.

Of course, besides these, all features can be provided if you want yourself **custom connecting rods**.
