 Custom design: Yes, accept

BMW E30 M3 S14 Forged Connecting Rod Main Dimension Drawing

BMW M3 E30 - 2.3 2.5 (S14B23, S14B25) conrods Description

Each 144mm S14 conrod is forged from Premium 4340 steel, Hurricane connecting rods come standard with 3/8 rod bolts for superior strength. Bearing bore tolerances are held to +/- 0.005mm. Bronze bushings allow for a full-floating pin. All Hurricane factory BMW E30 connecting rods are honed in-house and sizes are held to some of the tightest accepted tolerances in the industry. Rods are weight-matched into sets

and boxed, with the rotating, reciprocating and total weights noted for convenient use in the balancing process.

Note: H-Beam Connecting Rod for BMW E30 M3 S14 Polishing machine progress at Hurricane factory.

4340 Chromoly Lightweight Connecting Rods by Hurricane Machine. Simply put, there is not a better rod on the market. Overall, the clean, windage reducing design and strength of these 144mm BMW performance forged conrods set has proven to be extremely popular with M3 racers, and their consistent high quality and excellent finish has resulted in many satisfied customers. (Weight ~560 grams each).
