Customs Saab B205 Engine Rods Description

Saab B205 connecting rods are a new model rods, we main export to United Kingdom. All rods engineered from forged 4340 steel forgings and fully finished with CNC machine.

As a connecting rod factory, **Hurricane Speed&Performance** not only provide common rods, like **LS1 I-Beam Connecting Rod 6.125**, **Forged I-Beam Connecting Rods for Nissan/Holden RB30** etc, but also make custom rods according to specified diemensions and design , like Saab 9-5 B205 rods. They can handle more horse power with Saab B205 Engine. All these rods tolerance controlled strictly during production. Our TOLERANNCE of Main sizes as below :

1. Center to Center Length: ± 0.05
2. Big End Bore Diameter: $+0.013, -0.000$
3. Big End Width: ± 0.02
4. Small End Bore Diameter: $+0.005$
5. Small End Width: ± 0.05

If you want to custom any kinds of rods, our engineers and skilled craftsmen are dedicated to giving your company the edge in both quality and price over your competitors. And Browse our website or arrange a factory tour by emailing: marketing@hurricane-rod.com.cn . Or let us know your needs directly with [Custom Page](#).

Hi Illan

We received the shipment yesterday.

The con rods look good happy with them.
