Hurricane steel connecting rods RS3 144MM/22MM Description

Hurricane steel H-beam connecting rods for TTRS RS3 2.5 20V TFSI engines with high performance enhancement, the steel con-rods are made from 40CrNiMoA/4340/EN24 forgings for your 2.5L 5Cyl engine. The standard con-rods can meet your performance engine. With std H-beam design and low weight of con-rods, extra feature will be used to high stresses and extreme increases in performance.

1. Rifle Drilled

This feature provides better pin oiling and cooling leading to increased longevity of the whole piston-rod set.

2. Groove in Thrust Face

All rods come with grooves in thrust face, feature that allows weight reduction and reduced friction.

3. Radial Groove Sleeve

Silicon aluminum bronze rod sleeves with radial groove for oil tank and best pin oiling.

4. Ribbed Pin End

Ribbed pin end helps to keep pin bore round and avoid PE distortion in high engine speed applications.
