These Chevrolet BBC I beam 7.100" connecting rods CNC machined from 4340 / EN24 aircraft chrome moly steel, magnaflux inspected and heat treated to HRC 34-38 , I-beam design for added strength to load higher horsepower.

What's more , per 7.100 " connecting rods are inserted with highly durable bronze bushings for floating piston pin, high quality dowels installed on each rod for perfect fit and accurate re-assembling .

In additional , each rod is **polished and shot peened** after machine to increase fatigue life , to make the rods become more stronger .

Hurricane supply a wide of connecting rods for Chevy big block applications , such as :
