

## corvair connecting rod length 4.720" Main Sizes

Brand: Hurricane	 <p>The technical drawing shows two views of a connecting rod. The front view on the left shows a cross-section of the big end with a diameter of 1.925 inches and a width of 0.852 inches. The small end has a diameter of 0.800 inches. The center-to-center length is 4.720 inches. The side view on the right shows the rod's profile with a big end width of 0.851 inches and a small end width of 0.852 inches. The main body of the rod is labeled with a diameter of 0.800 inches.</p>
Center to Center Length: 119.89mm/4.720"	
Big End Bore Diameter: 48.89mm/1.925"	
Big End Width: 21.64mm/0.852"	
Small End Bore Diameter: 20.318mm /0.800"	
Small End Width: 21.610mm/0.851"	
Beam Style: H-beam	

## Hurricane corvair forged connecting rod Features

Connecting Rod Bolt Diameter	5/16"
Approximate Connecting Rod Weight	XXXg
Advertised Horsepower Rating	800hp
Quantity	Sold as 6 pieces /set
Material	<b>Forged 4340 steel</b>
Connecting Rod Finish	Shot-peened, Polished
Pin	Bronze wrist pin bushings
Wrist Pin Style	Floating
Cap Retention Style	Cap screw
Weight Matched Set	Yes ,Balanced +/- 1g
Magnafluxed	Yes
Private Label	Yes ,available
Custom design	Yes, accept

## Corvair Forged 4340 steel performance rods Description

Connecting rods are important components in nearly every internal combustion engine. They connect the pistons to the crankshaft, and as such must endure tremendous force during normal engine operation. Due to the high rate of speed engines operate, they also must be very precisely machined and balanced.

Corvair connecting rods are a balanced set of six rods. These are machine with fully CNC machine and are honed for the Ross Piston floating pin. This means you do not have to heat the connecting rod to install the pin. Super easy installation!
