VW MK7 GTI 2.0T TSI (EA888 Gen 3) Description

This is the complete set for your 2.0L TSI EA888 engine of the third generation: high-strength H-beam con-rods. This combination turns your engine into a stable turbo engine, and you can achieve performances of over 600 hp without a problem. Since the components are in perfect harmony with one another, you don't have to search so much. You also save money with the set!

Features of these EA888 Gen 3 2.0L TSI/TFSI H-beam con-rods:

- high-strength 4340 steel forgings
- suitable for extreme increases in performance
- extremely lightweight and very stable
- Magnaflux inspected
- 4 units per set

With ARP 2000 3/8" stretch bolts
23mm pistons pins
ARP fitting grease
Weight per set con-rod within +/- 1g
Made in China

ADDITIONAL FEATURES

TAPERED P.E

Tapered pin end feature allows weight saving and increased clearance when using boxed pistons.

RIFLE DRILLED

This feature provides better pin oiling and cooling leading to increased longevity of the whole piston-rod set.
