

Brand: Hurricane  
Engine: GM Duramax  
Part Type: Connecting Rods  
Center to Center Length: 163.07mm/6.420"  
Big End Bore Diameter: 66.98mm/2.637"  
Big End Width: 28.32mm/1.115"  
Small End Bore Diameter: 34.49mm /1.358"  
Small End Width: 38.99mm/1.535"  
Beam Style: H-beam  
Connecting Rod Bolt Diameter: 7/16 "  
Approximate Connecting Rod Weight: 1225g/piece  
Advertised Horsepower Rating: 1600hp  
Quantity: Sold as 8pieces /set  
Material: Forged 4340 steel  
Connecting Rod Finish: Shot-peened, Polished  
Pin: Bronze wrist pin bushings  
Wrist Pin Style: Floating  
Cap Retention Style: Cap screw  
Weight Matched Set: Yes ,Balanced +/- 1g  
Magnafluxed: Yes  
Private Label: Yes ,available  
Custom design: Yes, accept

These H-beam connecting rods , engineered for high performance Chevy (GM) Duramax diesel engine applications , are made using qualified [4340 forged steel](#) , each rod is featured with an oil groove into pin end to improve pin lubrication, and machined to handle extreme engine loads , tapered on pin end to save weight on the reciprocation end and give increased clearance for fully boxed pistons, to offer exceptional strength for the rods .

Note: Hurricane Connecting rod GM Duramax Diesel are all shot blasted and mico-polished. to view more of our conrods production process, please check:

## Customer Feedback for Duramax Connecting Rods

The rods look good. I will be using arp fasteners though. I am skeptical of the bolts sent. This is ok as i want to test the rods thoroughly, not the bolts.

They are 25 grams heavier on the rotating end (big end) as carrillo.

10 grams heavier on the recip end than carrillo. The exterior shot peening looks good.

I will be checking housing bores shortly.

Thanks
