

Brand: Hurricane
Engine: HONDA / ACURA B16
Part Type: Connecting Rods
Center to Center Length: 136.04mm/5.356"
Big End Bore Diameter: 48.01mm/1.890"
Big End Width: 23.75mm/0.935"
Small End Bore Diameter: 19.99mm /0.787"
Small End Width: 22.86mm/0.900"
Beam Style: H-beam
Connecting Rod Bolt Diameter: 3/8"
Approximate Connecting Rod Weight: 475g/piece
Advertised Horsepower Rating: 750hp
Quantity: Sold as 4pieces /set
Material: Forged 4340 steel
Connecting Rod Finish: Shot-peened, Polished
Pin: Bronze wrist pin bushings
Wrist Pin Style: Floating
Cap Retention Style: Cap screw
Weight Matched Set: Yes ,Balanced +/- 1g
Magnafluxed: Yes
Private Label: Yes ,available
Custom design: Yes, accept

Those kinds of Honda B16 H beam connecting rods are high quality finished, the bearing tags are not like common ones, also this type of B16 connecting rods added Rifle drilled design, Rifle Drilled(oiling channel from big end to piston pin), Also referred to as Forced Pin Oiling(FPO), rifle drilling increases wrist pin longevity by providing additional lubrication, this upgrade is highly recommended for street-driven cars that see mileage put on them, this kind of rifle drilling application is sold separately, please [contact us](#) for more information.

Hurricane connecting rod for Honda B16 are Burried and polished, those processes remove burrs and make surface smooth. also shot blasted, this process means Small ball hit surface and make them on surface, increase rods strength. We also use Sunnen Honing Machine to Hone forged honda rods big and small ends, make all to use sizes and save you time on machine shop. If you want to know more of

hurricane conrods process, please check our Youtube Vedio: [How it's made: Connecting rod](#) Or check our News page for [Hurricane High Performance connecting rods - Process of machining rods](#)

B16 connecting rods Design
