Custom Conrods for Subaru Engine Description

The rods are the go-to when upgrading your Subaru 2.0/2.2T WRX 2.5L STI EJ25/EJ20

Advantages:

- 1.You won't get a better product for this price.
- 2.We put these into engines that make up to 1000HP and have never had one fail.
- 3.They always have finished size pin bushing so you likely won't need any additional machining. Simply install your bearings, check your clearances, and put the power down.

- 4.All rods are properly shot peened after machining and 100% magnafluxed.
- 5.They are compatible with all ej20 engines
- 6.All Hurricane connecting rod sets, are weight matched to ± 1 grams, big end bores are final honed to a tolerance of $\pm .006\text{mm}$.

Custom Connecting Rods

Hurricane Speed and Performance has connecting rods for a variety of applications, including our custom Super Series 4340 forged steel connecting rods, manufactured our specifications with fully CNC machine.
