## J35 Connecting Rods - Hurricanerods.com Description

[4340 Chrome-Moly Connecting Rods](#)

This is unique single rib design: X-beam 4340 chrome-moly forged rods. This rod is available for high performance engines. Overall, this kind of X-beam are designed with the high strength, high quality, excellent finish with racers. If necessary, extra design can be designed on them also, included:

### 1. Rifle drilled

This feature provides better pin oiling and cooling leading to increased longevity of the whole piston-rod set.

### 2. Radial Groove Sleeve

Silicon aluminum bronze rod sleeves with radial groove for oil tank and best pin oiling.

**Radial Groove Sleeve**

### 3. Oil Reservoir on PE

Featuring a funnel shape at the top oil hole to provide a better chance to collect oil for the PE lubrication.

double oil reservoir: H-beam

one oil reservoir: I-beam, X-beam

#### 4. **Special design on big end**

This feature will increase touch area of cap and rods, ensure big end bore ellipticity and repeatability
