Toyota 1UZFE 146mm Connecting Rods Description

Hurricane 4340 I-Beam connecting rods, Made for Toyota V8 1UZFE engines, set of 8, CNC-machined from high performance 4340 forgings for superior strength. Each rod is heat-treated to 34-38HRC and then polished and fully shotpeened. All these rods balance weighted in sets and are available to come standard with ARP 2000 bolts rated at 220000 psi tensile strength. In addition , each 1uzfe I-beam rod machined with 3x45°shoulder designs to make the rods looks better, also one oil hole at their small ends to provide additional lubrication and cooling. You can look at some 1uzfe rods pictures as below:

How do you package the rods ?

When the rods shipped by sea , we usually use iron box ; When the rods shipped by airexpress , we can offer 3 different packagings , please look at following pictures :

Packaging 1

Packaging 2

Packaging 3

Hurricane also can make customize boxes , welcome to [contact](#) us to learn about more details .
