F20B I beam Rod Set Description

Hurricane Honda F20B I beam connecting rods are manufactured using the highest quality one piece 4340 forged steel forgings and have been designed to high horsepower applications. Our Forged Honda F20B 5.709 Conrod will be checked by ARP rod bolts and installed with silicone bronze wrist pin bushes to ensure reliability. These connecting rods are capable of 185 horsepower per rod. Hurricane factory can offer various Honda F-series conrods, like F20C, F22, F22C and F23.

Hurricane also could offer various kinds of beam design, just show some of our I beam design picture at below, for more info, please check: [Hurricane Connecting Rod Features - Various Beam Designs](#)

All of our hurricane connecting rods could laser-etched "Hurricane" logo or customer logo for authenticity, if you need any further info, welcome to [contact hurricane team](#)..
