Custom design: Yes, accept

Long 6.350 Forged Connecting Rods Main Drawing

H-Beam 6.350 Connecting Rods for Buick turbo V6 engine Description

Those turbo Buick V6 connecting rods are manufactured by [Hurricane Speed&Performance](#) and made from 4340 forged steel, center to center length 6.350". Dimensionally and magnaflux inspected to ensure extreme reliability. They are highly recommended for performance engine rebuild.

These 6.350" turbo Buick V6 connecting rods are heat treated and shot peened for added strength. Those considering a long rod for the 3.8L or 4.1L engine will surely appreciate the craftsmanship that goes into these h-beam steel connecting rods. They will perfectly match your 1986 or 1987 Buick Grand National, T Type, Turbo T, or GNX 3.8 liter turbo V6 engines.

Features:

- Designed to deliver trouble-free, consistent performance
- Right for your vehicle and lifestyle
- Made from high-quality materials for ultimate durability
- Manufactured to meet or exceed strict quality requirements

Hurricane factory can produce various kinds of performance forged/billet connecting rods and crankshafts for your Buick engines, if you do not find what you need through our website, please feel free to discuss your requirements with [hurricane team](#).
