

Brand: Hurricane  
Engine: Audi / VW 1.9L TDI  
Part Type: Connecting Rods  
Center to Center Length: 144mm/5.670"  
Big End Bore Diameter: 53.70mm/2.114"  
Big End Width: 24.85mm/0.978"  
Small End Bore Diameter: 26.01mm /1.024"  
Small End Width: 24.85mm/0.978"  
Beam Style: X-beam  
Connecting Rod Bolt Diameter: 3/8"  
Quantity :4pcs/set  
Approximate Connecting Rod Weight: 629/piece  
Advertised Horsepower Rating: 900hp  
Material: Forged 4340 steel  
Connecting Rod Finish: Shot-peened, Polished  
Pin: Bronze wrist pin bushings  
Wrist Pin Style: Floating  
Cap Retention Style: Cap screw  
Weight Matched Set: Yes ,Balanced +/- 1g  
Magnafluxed: Yes  
Private Label: Yes ,available  
Custom design: Yes, accept

These X-beam rods fits VW Audi 1.9L TDI engine , **forged from high tensile steel 4340** , all these rods are Magnafluxed, fully CNC machined for high strength, and matched weight within 2g each set .

Each rods is shot peened and polished during machine to remove stress better and improve fatigue life .

Compared with Hurricane normal H-beam and I-beam forged connecting rods , X-beam is stronger than H-beam rods , but the strength less than I-beam , the weight is lighter than Hurricane I-beam connecting rods , but heavier than H-beam connecting rods . When you are choosing a set rods , beside weight and strength , there are much factors should be considered ,such as The type of engine you are building , The maximum rpms it will turn , The relative reliability, The type of rods you want or the style of rods that are available to fit the engine you are building etc .

Feature Product:

[Audi VW TDI 144 x 26mm H-beam Forged Connecting Rods](#)

Hurricane also manufacture forged X-beam , H-beam and I-beam connecting rod for other European applications , if you can not find the items which you are looking for in here, welcome to [contact](#) us .
